EDUCATION

University of California, Berkeley - GPA: 3.911/4.00 (Honors to date) - Relevant Coursework: Data Structures & Algorithms (<i>CS 61B</i>), Artificial Intelligence (<i>CS 188</i>), Principles & Techniques of Data Science (<i>Data 100</i>) - Intended majors: Computer Science, and Applied Mathematics with a focus in Data Science	Expected Spring 2028 <i>Berkeley, CA</i>
--	--

WORK EXPERIENCE

Stealth AI Startup - Founded by Eric Schmidt and Sebastian Thrun <i>Technical Product Intern</i>	June 2026 - Present
--	------------------------

- Ship features and fixes across Swift and Kotlin codebases for multiple consumer social apps
- Build internal content-moderation and analytics dashboards on Supabase/Postgres
- Engineer a real-time LED signup tracker in Python on Raspberry Pi, integrating production APIs

UC Berkeley College of Computing, Data Science and Society <i>CS 61A Tutor</i>	Spring 2026 - Present
--	--------------------------

- Supported 30+ students in weekly lab sections, explaining core CS 61A concepts
- Guided 1-on-1 troubleshooting for complex assignments, focusing on developing understanding

UC Berkeley College of Computing, Data Science and Society <i>Data C8 Tutor</i>	Fall 2025
---	-----------

- Led weekly sections of 5 students on Python programming and concepts like hypothesis testing
- Provided individualized support during office hours to reinforce lecture material
- Graded ~500 student responses weekly, providing clear feedback to reinforce learning

AskTuring AI

<i>Summer AI Product Intern</i> - Created official user guide, structuring content to support future AI-powered help features - Synthesized technical documentation into accessible onboarding and support materials	May 2025 - August 2025
--	---------------------------

Acting

SAG-AFTRA Member - Represent major brands including Lowes, McDonalds, Audi, Chrysler and Duracell - Create strong working relationships with all members of cast and crew	2012 - Present
--	----------------

Projects

Can You Picture Heaven (CYPH) <i>Level Designer / Developer</i> — tobyleeder.com/projects/cyph/ - Developed 3 engaging minigames with unique gameplay and story in Unity/C# - Designed a narrative game blending interactive media and trauma healing	2024
---	------

Classroom Jukebox <i>Full-Stack Developer</i> — tobyleeder.com/projects/classroomjukebox/ - Led 7-person team as Scrum Master, coordinating sprints and stand-ups to drive progress - Developed Spring backend with SQLite database, real-time queue updates, and moderation tools - Learned and implemented WebSocket communication for real-time updates across connected clients	2023
---	------

CLUBS AND ACTIVITIES

Business And Film Association (BAFA) <i>Short Film Director</i> - Directed a crew of 20+ and a cast of 4, managing all aspects of production - Coordinated cross-functional teams including cinematography, sound, and lighting	August 2025 - Present
---	--------------------------

Barestage Productions <i>Financial Director, Stage Manager, Sound Designer, Light Designer, Actor</i> - Oversee finances, ensuring responsible budgeting and financial feasibility - Manage operating budget of ~\$25,000 over multiple productions - Coordinate schedules of cast and crew of 30+ people, ensuring smooth rehearsal process	2024 - 2025
--	-------------

SKILLS

- Programming:* Java, Swift, Python, JavaScript, C++, C#, Kotlin, HTML, CSS, SASS, Liquid, Markdown
- Technologies:* Supabase, PostgreSQL/SQL, AWS (Lambda, API Gateway, EC2, IAM), Spring, Flask, Git, WebSocket, NGINX, Docker, Raspberry Pi, Cursor/Claude Code (AI-assisted development)
- Interests:* Full-stack development, game development, film production, acting, scriptwriting, dancing, singing
